The first 4 weeks on Instagram

For a new local business. One job per week, in this order.
Each week sets up the next, so don't skip ahead.

01 Week 1: the profile

- [ ] Name field says what you sell and where
- [ ] Bio answers: what, for whom, how to buy
- [ ] Address added so posts can carry a location tag
- [ ] Reviews highlight started, even with one review
- [ ] Contact or message button works (test it from another phone)

02 Week 2: film your first customers

- [ ] Ask before you film anyone
- [ ] Film the first reaction, not a posed smile
- [ ] Tag the location on every post
- [ ] Save the best clips for week 4

03 Week 3: collab with a neighbour

- [ ] Pick a nearby business with the same customers
- [ ] They sell something different from you
- [ ] Make one post together, publish it as a collab
- [ ] Both of you share it to stories

04 Week 4: the best post becomes a small ad

- [ ] Open Insights, sort posts by shares and saves
- [ ] Pick the one people shared most
- [ ] Run it as a small ad to people near you
- [ ] Don't make a new ad. Use the post that already worked

Comment WEEKS on the post if a friend needs this too.
